

Introducing TouchCenter—A Sophisticated and Exciting Advance in Security and Home Control.

The state-of-the-art touchscreen keypad makes security system operation simpler than ever—with monochrome graphics and menu-driven prompts guiding you every step of the way.

Features:

- Quickly and easily arm and disarm your system, bypass zones or control lights and appliances without any complicated commands to remember
- Centralized, fingertip control of lighting, appliances, garage doors and more
- Event log conveniently stores the most recent actions, letting you keep tabs on family members and track system use
- Message Center keeps you in touch, letting family members record and playback voice memos for one another
